EAOS

EURASIAN GEOSYNTHETICS SYMPOSIUM

Following the successful 1st edition in 2017, CNITA, the China Nonwovens & Industrial Textiles Association, and EDANA, organise the EurAsian Geosynthetics Symposium 2019, in Beijing on 18–19 November 2019.

This symposium will take place in conjunction with the ISO TC 221 annual meetings on 20–22 November 2019.

WHAT TO EXPECT FROM THIS SYMPOSIUM?

- A two-day conference and exhibition covering markets, products, technologies and applications for all types of geosynthetics: geotextiles, geogrids, geonets, geomembranes, geocomposites, geocells and roofing felts and membranes
- A unique networking event attracting leading decision makers from across the geosynthetics supply chain, from raw materials to buyers and users of geosynthetics, with specific reference to Greater Europe, including Russia, and Asia
- Top level speakers, presenting innovative topics in line with the sustainability issues (simultaneously translated into English and Mandarin)
- Tabletop exhibition: a fantastic opportunity for companies to display and promote their products and services

18 – 19 NOV. 2019

BEIJING | CHINA

You are invited to submit an abstract on one of the following topics

- Separation
- Filtration
- Drainage
- Reinforcement
- Stabilization
- Waterproofing and Fluid Barrier
- Gas Barrier and Containment
- Erosion Control

How to apply?

Send your abstract by 30 April 2019 to delphine.rens@edana.org

The abstract should include:

- a proposed title
- 3-4 bullet points summarizing the presentation
- the contact details of the speaker
