

Construction Working Group

Terms of Reference

What is the Construction Working Group?

The Construction working group consists of member companies of EDANA, active in the construction market. The products represented are geotextiles, roofing and flooring, thermal and acoustic insulation, pitched roof and house wrap, etc.

Objectives

- Promote and create awareness of nonwoven construction products.
- Provide dialogue opportunities and coordinate activities with relevant authorities, institutions and organizations.
- Provide non-competitive information about the industry.

Who should attend?

Every EDANA member company with experience in nonwoven construction products can appoint one or more representatives to participate in this Working Group.

Participation in a group is subject to the EDANA guidelines.

Benefits/deliverables

- Provide a clear statement and answer to stakeholders on different topics, relevant for the construction industry.
- Exchange of technical expertise in non-competitive areas (technical standards, sustainability, statistics)
- Active positive communication on nonwovens in construction, focusing on function and benefits (Organizing conferences and workshops, participating in fairs).
- Leverage experience and best practices from other EDANA Working Groups
- Updates on policy and legislative developments

Related groups

This group operates within the remit of the Durables Steering Group.
