Sanitary measures for onsite training courses

At EDANA we will do our utmost possible to hold this training in face-to-face setting in our office in Brussels, applying the following measures:

- The verification of the sanitary pass (Vaccination certificate against Covid-19 / or Negative PCR test / or antigenic test less than 72 hours / or Certificate of reinstatement) upon entry.
- Sanitizing gel at disposal, physical distancing and aeration
- Number of participants limited to 20 to secure social distancing in the training room

However, we strongly recommend you take a flexible flight ticket and hotel room reservation, in case we would have to postpone the training course or make it an online course. In that case you will be notified 10 days in advance.

In case we decide to go ‘online’, the timing will be different, but you will be notified. Should you not be able to participate in the online course, we will offer alternative dates.

In terms of travelling, we recommend you check the latest restrictions and measures on https://www.info-coronavirus.be/en/travels/.

We also encourage you to visit this website which provides information on the various measures in place, including on quarantine and testing requirements for travellers: https://reopen.europa.eu/en/.
